SUMMARY

I am a computing student at Greenwich University who has just completed a year in industry working as an IT Analyst at TJX Europe's head office in Watford.

As well as improving the skills I have learned in front and back end programming, I would appreciate the opportunity to learn any new skills. To this end, I am willing to take on and accept any feedback that I can use to improve as an employee. I have experience in JavaScript, HTML, CSS as well as Python, SQL, and PHP.

EXPERIENCE

September 2024 – August 2025

- Placement: IT Analyst at TJX Europe

Responsibilities: As part of my year in industry I will be completing three rotations in TJX with the IT Communications and Creative Media, Business Change Management, and Technical Training teams before completing a capstone project from June to August 2025.

September 2022 – August 2024

- Waiter and Senior Waiter at Cote restaurant Blackheath

Responsibilities: Beginning as a trainee waiter one year ago I was responsible for looking after customers. Following my promotion to senior waiter, I assumed responsibility for the training of new waiters and the managing of sensitive allergy orders.

June 2021 – August 2022

- Yard labourer/Site worker

Responsibilities: Beginning as a yard labourer I loaded and unloaded trucks which supply construction sites. After passing my Health, Safety and Environment for Operatives test and my CISRS Operatives Training card exam I began working on sites where I transported equipment and assembled scaffolding.

July 2019

- Office assistant at Scott Logic

Responsibilities: For this role I spent time cataloguing department electrical waste and organizing dates for companies to pick it up. Additionally, I was given the chance to work with two programmers, Alex and Adrian, learning Python and HTML coding as well as writing my first website with the latter.

SEPTEMBER 2014 – JULY 2017

CCF CADET

Responsibilities: I was a member of the catering department and RAF section of my school's Combined Cadet Force. For this role I would organize activities on open days like teaching visitor's skills such as cooking with hay boxes, assembling and dismantling tents, team building exercises and communication skills.

SKILLS AND INTERESTS

Rugby/Cycling: I currently play for Askean's rugby club on a weekly basis at The Rectory field and I have completed several long-distance and high-endurance bike rides with my father, including a 105 mile bike ride across Hadrian's Wall in May 2023.

Baking: I look forward to bringing my cooking to the office.
